Youmans, G. P., 109
Ziskind, M. M., 237
Zwi, S., 441

Acid glycosaminoglycans (mucopolysaccharides) in pleural effusion, 37
ACTH, big, ectopic production of, in carcinoma of lung, clinical usefulness as biologic marker of, 279
Adolescents, asymptomatic, with idiopathic scoliosis, pulmonary function in, 389
Aerosol Sch 1000 anticholinergic bronchodilator, 419
Air
  a sea of (Retrospectroscope), 355
  trapping, relationship of, to increased lung recoil pressure induced by chest cage restriction, 21
Airway(s)
  conductance, effect of prostaglandins $F_{2\alpha}$ and E_2 on, in healthy subjects and asthmatic patients, 313
  function, small, changes in, after live attenuated influenza vaccination, 399
  obstruction
    early detection of, 119
    mild, comparison of maximal mid-expiratory flow, flow volume curves, and nitrogen closing volumes in patients with, 405
    upper, response to exercise in, 631
  reactive, effect of nebulized lidocaine on, 739
Alpha$_1$-antitrypsin
  concentrations
    in arterial and venous blood of patients with obstructive lung disease (Note), 877
    serum, comparison of commercially available radial immunodiffusion kits for determination of (Note), 97
  deficiency and hepatic carcinoma (case report), 863
Alveolar
  cell carcinoma accompanied by fluid and electrolyte depletion through production of voluminous lung liquid (case report), 857
  macrophages, pulmonary, and blood leukocytes in smokers and nonsmokers, comparison of proteolytic enzyme activity in, 579
  proteinosis, pulmonary, advances in treatment of (Note), 361
AMERICAN REVIEW OF RESPIRATORY DISEASE progress report (editorial), 1
AMERICAN THORACIC SOCIETY
  International Conference on Lung Diseases, 891
  Notices, 107, 242, 370, 571, 711, 953
Antibody(ies)
  to herpes-like virus sarcoidosis (Note), 880
  mycoplasmal complement-fixing, prevalence of, in sarcoidosis (Note), 364
  precipitating, in office workers and hospitalized patients directed toward antigens causing hypersensitivity pneumonitis, 201
Antigen(s)
  causing hypersensitivity pneumonitis, precipitating antibodies in office workers and hospitalized patients directed toward, 201
  inhalation, histamine release during, in experimental asthma in dogs, 148
  participating in macrophage migration inhibition to *Mycoplasma pneumoniae* (Note), 566
Arrhythmia, cardiac, isoproterenol hydrochloride-induced, in COPD, 743
Aspergilloma. *See* Tumor(s)
Aspergillosis, allergic bronchopulmonary, evidence of limited tissue invasion in (case report), 232
Aspiration, transtracheal, anterior cervical infections as complications of (correspondence), 707
Asthma
  children with, contribution of inhomogeneity of lung units to maximal expiratory flow-volume curve in, 725
  dose response of patients with, to inhaled isoproterenol, 321
  experimental, histamine release during antigen inhalation, in dogs, 148
  patients with
    bronchoconstrictor effects of deep inspiration in, 433
    clinical relevance of flow rate response to low density gas breathing in, 126
    and healthy subjects, effect of prostaglandins $F_{2\alpha}$ and E_2 on airway conductance in, 313
Bacille Calmette-Guérin
  relative immunogenicity of streptomycin-susceptible and -resistant strains of, 43
  status of (correspondence), 240
  trials and certain aspects involved in them (correspondence), 888
Bacteremia related to fiberoptic bronchoscopy (case report), 555
Bacteriophage typing of *M. tuberculosis*, WHO studies on, 459
Blood
  arterial and venous, alpha$_1$-antitrypsin concentrations in, of patients with obstructive lung disease (Note), 877
  leukocytes and pulmonary alveolar macro-

phages in smokers and nonsmokers, comparison of proteolytic enzyme activity in, 579
volume, capillary, measured by rebreathing technique, 157
Breathing, low density gas, clinical relevance of flow rate response to, in asthmatics, 126
Bronchoconstrictor effects of deep inspiration in patients with asthma, 433
Bronchodilator, aerosol Sch 1000 anticholinergic, 419
Bronchofiberscopy (correspondence), 887
Bronchofiberscopy (state of the art), 62
Bronchoscope, fiberoptic, fatal pulmonary hemorrhage after transbronchial lung biopsy through (case report), 853
Bronchoscopy, fiberoptic
alternate method for, of intubated patient (Note), 562
bacteremia related to (case report), 555
C3 and carboxypeptidase B-like activity in cystic fibrosis (Note), 100
Cancer, lung
in men, relation between age at diagnosis and smoking habits in (Note), 883
thwarting factors in periodic screening for, during Philadelphia pulmonary neoplasm research project, 289
Carboxypeptidase B-like activity and C3 in cystic fibrosis (Note), 100
Carcinogen, cigarette smoke as (correspondence), 105
Carcinoma. *See* Tumor(s)
Cardiac output measured by rebreathing technique, 157
Cats, anesthetized, prolonged sympathetic activation and pulmonary surfactant and its absence of effect in, 619
Cerium-144, prevention of radiation from inhaled, by lung lavage in beagle dogs, 795
Chaulmoogra acids, activity of, against *M. leprae* (Note), 703
Chemosensitivity, blunted, recurrent high altitude pulmonary edema with (case report), 869
Chemotherapy
intermittent, for adults with tuberculosis (correspondence), 366
short-course, for pulmonary tuberculosis (state of the art), 325
Chest
cage restriction, relationship of air trapping to increased lung recoil pressure induced by, 21
wall abnormality, localized, horizontal gradient in ventilation distribution caused by, 781
Children with asthma and cystic fibrosis, contribution of inhomogeneity of lung units to maximal expiratory flow-volume curve in, 725
Chromatography, affinity, with concanavalin A, 3 mycobacterial polysaccharides purified by, 787
Cigarettes. *See* Smoking
Closing volume(s)
factors influencing measurement of, 749
measurements, variability of, in normal man, 135
nitrogen, comparison of maximal mid-expiratory flow, flow volume curves, and, in patients with mild airway obstruction, 405
test, N_2, in population studies, 141
Collagen synthesis and content, quantitation of, in lung growth after unilateral pneumonectomy, 267
Computer-assisted instruction course in diagnosis and treatment of respiratory disease, 299
Concanavalin A, antigenicity in guinea pigs and monkeys of 3 mycobacterial polysaccharides purified by affinity chromatography with, 787
Copper, liver granulomas containing, in vineyard sprayer's lung, 189
CORRESPONDENCE
Anterior cervical infections as complications of transtracheal aspiration, 707
Bilateral recurrent pneumothoraces, 368
Bronchofiberscopy, 887
Cigarette smoke as a carcinogen?, 105
Infectivity of patients with pulmonary tuberculosis in inner city homes, 707
Intermittent chemotherapy for adults with tuberculosis, 366
In vitro lymphoblastoid transformation in presence of tuberculin as diagnostic aid in tuberculous meningoencephalitis, 366
Isoniazid and the liver, 707
Names for tubercle bacilli. The status of BCG, 240
Pulmonary blastoma, 240
Rifampin concentrations in cerebrospinal fluid of patients with tuberculous meningitis, 240
Some of the BCG trials and certain aspects involved in them, 888
Theophylline toxicity caused by impaired theophylline degradation, 240
Tuberculin skin test, 366
Cryptococcosis, cavitary pulmonary, complicated by aspergilloma (case report), 549
Cystic fibrosis
carboxypeptidase B-like activity and C3 in (Note), 100
children with, contribution of inhomogeneity of lung units to maximal expiratory flow-volume curve in, 725
open thoracotomy for pneumothorax, 611
tracheal mucociliary transport in patients with, and its stimulation by terbutaline, 733

Diffusing capacity
and membrane diffusing capacity measured by rebreathing technique, 157
pulmonary, for carbon monoxide (D_{LCO}) (Retrospectroscope), 225
Dog(s)
beagle, prevention of radiation pneumonitis from inhaled cerium-144 by lung lavage in, 795
histamine release during antigen inhalation in experimental asthma in, 148
as model for comparative study of respiratory and systemic immunologic reactions, 257
respiratory tissue in, chronic cholinergic stimulation of, 423
Drugs. *See also* individual drugs
antithyroid, inhibition of multiplication of *M. leprae* by, 651
Ectopic production of big ACTH in carcinoma of lung, clinical usefulness as biologic marker of, 279
Edema
pulmonary, and wheezing after pulmonary embolism (case report), 693
recurrent high altitude pulmonary, with blunted chemosensitivity (case report), 869
EDITORIALS
The adult respiratory distress syndrome, 713, 716
The competing risks of tuberculosis and hepatitis for adult tuberculin reactors, 573
Delayed hypersensitivity and immunity in tuberculosis, 243
Possible relation between delayed hypersensitivity and cell-mediated immunity, 373
Progress report of AMERICAN REVIEW OF RESPIRATORY DISEASE, 1
Relation between delayed hypersensitivity and immunity in tuberculosis, 109
Either—or? (Why not both?) (Retrospectroscope), 539
Elastase and neutral, metal-dependent enzyme activity of leukocyte lysosomal granules (Note), 873
Electrolyte depletion, alveolar cell carcinoma accompanied by fluid and, through production of voluminous lung liquid (case report), 857
Embolism, pulmonary, pulmonary edema and wheezing after (case report), 693
Environmental-chamber study, effects of ozone on pulmonary function in normal subjects in, 763
Enzyme(s)
activity, proteolytic in pulmonary alveolar macrophages and blood leukocytes in smokers and nonsmokers, comparison of, 579
neutral, metal-dependent, and elastase activity of human leukocyte lysosomal granules (Note), 873
proteolytic, effects of, on tensile strength of human lung, 184
Epithelium, bronchiolar, in cigarette smokers, 4
Eskimo patients, phage types of *M. tuberculosis* in cultures isolated from, 307
Exercise, response to, in upper airway obstruction, 631
Fibrosis, cystic
carboxypeptidase B-like activity and C3 in (Note), 100
children with, contribution of inhomogeneity of lung units to maximal expiratory flow-volume curve in, 725
open thoracotomy for pneumothorax in, 611
tracheal mucociliary transport in patients with, and its stimulation by terbutaline, 733
Flow
forced end-expiratory, normal values and evaluation of, 755
rate response to low density gas breathing in asthmatics, 126
volume curve(s)
functional abnormalities in young asymptomatic smokers with special reference to, breathing various gases, 623
maximal
expiratory, contribution of inhomogeneity of lung units to, in children with asthma and cystic fibrosis, 725
mid-expiratory flow, and nitrogen closing volumes, comparison of, in patients with mild airway obstruction, 405
Frankenstein, Pickwick, and Ondine (Retrospectroscope), 689
Gas exchange, effect of nitroglycerin in, on chronic obstructive pulmonary disease, 177
Glycosyltransferases, chronic cholinergic stimulation of canine respiratory tissue, effect of, on activities of, 423
Granuloma. *See* Tumor(s)
Granulomatosis
bronchocentric, mucoid impaction, and hypersensitivity reactions to fungi (state of the art), 497
hepatic, new etiology of, 189
Guinea pigs, antigenicity in, of 3 mycobacterial polysaccharides purified by affinity chromatography with concanavalin A, 787
Hemorrhage
fatal pulmonary, after transbronchial lung biopsy through fiberoptic bronchoscope (case report), 853
Hepatitis, competing risks of, for adult tuberculin reactors (editorial), 573
High altitude pulmonary edema, recurrent, with blunted chemosensitivity (case report), 869
Histamine release during antigen inhalation in

experimental asthma in dogs, 148
How to make hasenpfeffer (Retrospectroscope), 849
Hyaline membrane disease (state of the art), 657
Hyaluronic acid
biochemical characterization of, from case of benign, localized, pleural mesothelioma, 775
histochemical demonstration of, in pleural mesothelioma (Note), 699
Hypersensitivity
delayed
and cell-mediated immunity, possible relation between (editorial), 373
and immunity, relation between, in tuberculosis (editorial), 109, 243
pneumonitis, precipitating antibodies in office workers and hospitalized patients directed toward antigens causing, 201
reactions to fungi (state of the art), 497
Immunity
cell-mediated, and delayed hypersensitivity, possible relation between (editorial), 373
and delayed hypersensitivity, relation between, in tuberculosis (editorial), 109, 243
Immunodiffusion kits, radial, comparison of commercially available, for determination of serum alpha$_1$-antitrypsin concentrations (Note), 97
Immunogenicity, relative, of streptomycin-susceptible and -resistant strains of BCG, 43
Immunologic
reactions, respiratory and systemic, canine model for comparative study of, 257
studies in patients with recurrent bronchopulmonary infections, 441
Impaction, mucoid, bronchocentric granulomatosis, and hypersensitivity reactions to fungi (state of the art), 497
Infection(s)
acute, in chronic respiratory disease and comparison groups, the Tecumseh study, 27
anterior cervical, as complications of transtracheal aspiration (correspondence), 707
M. simiae, in U.S. (case report), 357
recurrent bronchopulmonary, immunologic studies in patients with, 441
Influenza vaccination, live attenuated, changes in small airway function after, 399
Inhalation, antigen, histamine release during, in experimental asthma in dogs, 148
Inhomogeneity, contribution of, of lung units to maximal expiratory flow-volume curve in children with asthma and cystic fibrosis, 725
Inoculation, effect of route of, on growth and immunogenicity, 43
Interacinar pathway in lung (case report), 489
Isoniazid
and liver (correspondence), 707
recipients, reliability of autoanalytic (colorimetric) determinations of SGOT in (Note), 237
Isoproterenol
hydrochloride-induced cardiac arrhythmia in COPD, 743
inhaled, dose response of patients with asthma to, 321
Lavage, lung, prevention of radiation pneumonitis from inhaled cerium-144 by, in beagle dogs, 795
Leukocyte(s)
blood, and pulmonary alveolar macrophages in smokers and nonsmokers, comparison of proteolytic enzyme activity in, 579
lysosomal granules, elastase and neutral, metal-dependent enzyme activity of (Note), 873
Lidocaine
nebulized, effect of, on reactive airways, 739
Light, effect of, on tuberculin purified protein derivative solutions, 52
Liver
granulomas containing copper in vineyard sprayer's lung, 189
and isoniazid (correspondence), 707
Lung
biopsy, transbronchial, through fiberoptic bronchoscope, fatal pulmonary hemorrhage after (case report), 853
cancer
in men, relation between age at diagnosis and smoking habits in (Note), 883
thwarting factors in periodic screening for, during Philadelphia pulmonary neoplasm research project, 289
carcinoma of, clinical usefulness as biologic marker of ectopic production of big ACTH in, 279
child and adult, neuroepithelial bodies in, 469
disease
chronic obstructive, further observations on course and prognosis of, 719
international conference on (ATS statement), 891
obstructive, alpha$_1$-antitrypsin concentrations in arterial and venous blood of patients with (Note), 877
effects of proteolytic enzymes on tensile strength of, 184
growth after unilateral pneumonectomy, quantitation of collagen synthesis and content in, 267
interacinar pathways in (case report), 489
lavage, prevention of radiation pneumonitis from inhaled cerium-144 by, in beagle dogs, 795
liquid, alveolar cell carcinoma accompanied by fluid and electrolyte depletion through production of (case report), 857
postmortem fixation of, for electron micro-

scopy, 247
postnatal growth and development of (state of the art), 803
recoil pressure, increased, relationship of air trapping to, induced by chest cage restriction, 21
resection candidate, pulmonary function evaluation of, 379
units, contribution of inhomogeneity of, to maximal expiratory flow-volume curve in children with asthma and cystic fibrosis, 725
Lymphatics and pleural cavity, preformed stomas connecting, in parietal pleura, 12
Lymphoblastoid transformation, *in vitro*, in presence of tuberculin as diagnostic aid in tuberculous meningoencephalitis (correspondence), 366
Lymphocyte function, suppression of, by products derived from cigarette smoke, 453
Macromolecules, release of, chronic cholinergic stimulation of canine respiratory tissue, effect of, on release of, 423
Macrophage(s)
migration inhibition, antigens participating in, to *Mycoplasma pneumoniae* (Note), 566
pulmonary alveolar, and blood leukocytes in smokers and nonsmokers, comparison of proteolytic enzyme activity in, 579
Medical care group, prepaid, pneumococcal isolations from patients with pneumonia and control subjects in, 595
Meningitis, tuberculous, rifampin concentrations in cerebrospinal fluid of patients with (correspondence), 240
Meningoencephalitis, tuberculous, *in vitro* lymphoblastoid transformation in presence of tuberculin as diagnostic aid in (correspondence), 366
Mesothelioma. *See* Tumor(s)
Microscope, scanning electron, bronchiolar epithelium in cigarette smokers observed with, 4
Microscopy, electron, postmortem fixation of human lungs for, 247
Monkeys, antigenicity in, of 3 mycobacterial polysaccharides purified by affinity chromatography with convanavalin A, 787
Mucociliary transport, tracheal, in patients with cystic fibrosis and its stimulation by terbutaline, 733
Mucopolysaccharides in pleural effusion, 37
Mycobacterium
buruli, relation of, to *M. ulcerans* and other mycobacteria (Note), 599
habana and *M. simiae*, relation between, 196
kansasii disease, untreated, course of, 477
leprae
activity of chaulmoogra acid against (Note), 703
inhibition of multiplication of, by several antithyroid drugs, 651
simiae
infection in U.S. (case report), 357
and *M. habana*, relation between, 196
tuberculosis
incidence of urine cultures positive for, in general tuberculosis patient population, 647
phage types of, in cultures isolated from Eskimo patients, 307
WHO studies on bacteriophage typing of, 459
ulcerans, relation of, to *M. buruli* and other mycobacteria (Note), 559
Mycoplasma pneumoniae, antigens participating in macrophage migration inhibition to (Note), 566
National Heart and Lung Institute, 955
Neisseria meningitidis, nosocomial pneumonia caused by (case report), 229
Neoplasm, pulmonary, research project at Philadelphia, thwarting factors in periodic screening for lung cancer during, 289
Neuroepithelial bodies in child and adult lung, 469
Nitrogen closing volume(s)
maximal mid-expiratory flow, and flow volume curves, comparison of, in patients with mild airway obstruction, 405
test in population studies, 141
Nitroglycerin, effect of, in gas exchange on chronic obstructive pulmonary disease, 177
Oklahoma, extrapulmonary tuberculosis in, 1965-1973, 641
Ozone, effects of, on pulmonary function in normal subjects, 763
Philadelphia pulmonary neoplasm research project and thwarting factors in periodic screening for lung cancer, 289
Pleura, parietal, preformed stomas connecting pleural cavity and lymphatics, 12
Pleural
cavity and lymphatics, preformed stomas connecting, in parietal pleura, 12
effusion
acid glycosaminoglycans in, 37
tension, as delayed complication of pneumothorax therapy in tuberculosis (case report), 543
Pneumococcal isolations from patients with pneumonia and control subjects in prepaid medical care group, 595
Pneumocystis carinii pneumonia, roentgenographically atypical (case report), 89
Pneumonectomy, unilateral, lung growth after, 267
Pneumonia

nosocomial, caused by *Neisseria meningitidis* (case report), 299
patients with, pneumococcal isolations from, and control subjects in prepaid medical care group, 595
Pneumocystis carinii, roentgenographically atypical (case report), 89
Pneumonitis
hypersensitivity, precipitating antibodies in office workers and hospitalized patients directed toward antigens causing, 201
radiation, prevention of, from inhaled cerium-144 by lung lavage in beagle dogs, 795
Pneumothoraces, bilateral recurrent (correspondence), 368
Pneumothorax
open thoracotomy for, in cystic fibrosis, 611
therapy in tuberculosis, tension pleural effusion as delayed complication of (case report), 543
Pollenosis, ragweed, predictability of radioallergosorbent test in, 605
Polysaccharides, mycobacterial, purified by affinity chromatography with concanavalin A, antigenicity in guinea pigs and monkeys of, 787
Postmortem fixation of human lungs for electron microscopy, 247
Potassium, distribution of, in chronic obstructive pulmonary disease, 166
Prostaglandin(s)
$F_{2\alpha}$ and E_2, effect of, on airway conductance in healthy subjects and asthmatic patients, 313
-induced labor, respiratory function during (Note), 564
Protease
inhibitors in chronic obstructive pulmonary disease, 587
Proteinosis, pulmonary alveolar, advances in treatment of (Note), 361
Pulmonary
disease, chronic obstructive
distribution of sodium and potassium in, 166
effect of nitroglycerin in gas exchange on, 177
frequency of isoproterenol hydrochloride-induced cardiac arrhythmia in, 743
protease inhibitors in, 587
function
in asymptomatic adolescents with idiopathic scoliosis, 389
effects of ozone on, in normal subjects, 763
evaluation of lung resection candidate, 379
Radioallergosorbent test, predictability of, in ragweed pollenosis, 605
Ragweed pollenosis, predictability of radioallergosorbent test in, 605
Rebreathing technique, diffusing capacity, membrane diffusing capacity, capillary blood volume, pulmonary tissue volume, and cardiac output measured by, 157
Resection candidate, lung, pulmonary function evaluation of, 379
Respiration, neural regulation of (state of the art), 206
Respiratory
disease(s)
chronic, acute infection in, and comparison groups, the Tecumseh study, 27
diagnosis and treatment of, computer-assisted instruction course in, 299
distress syndrome, adult (editorial), 713, 716
function during prostaglandin-induced labor (Note), 564
and systemic immunologic reactions, canine model for comparative study of, 257
RETROSPECTROSCOPE
Either—or? (Why not both?), 539
Frankenstein, Pickwick, and Ondine, 689
How to make hasenpfeffer, 849
Pulmonary diffusing capacity for carbon monoxide (D_{LCO}), 225
A sea of air, 355
Rifampin concentrations in cerebrospinal fluid of patients with tuberculous meningitis (correspondence), 240
Roentgenographically atypical *Pneumocystis carinii* pneumonia (case report), 89
Sarcoidosis
antibody to herpes-like virus in (Note), 880
prevalence of mycoplasmal complement-fixing antibodies in (Note), 364
Scoliosis, idiopathic, pulmonary function in asymptomatic adolescents with, 389
Serum alpha$_1$-antitrypsin concentrations, comparison of commercially available radial immunodiffusion kits for determination of (Note), 97
SGOT, autoanalytic (colormetric) determination of, in isoniazid recipients, reliability of (Note), 237
Skin test, tuberculin (correspondence), 366
Smoke, cigarette
as carcinogen? (correspondence), 105
suppression of lymphocyte function by products derived from, 453
Smokers, cigarette
bronchiolar epithelium in, 4
and nonsmokers, comparison of proteolytic enzyme activity in pulmonary alveolar macrophages and blood leukocytes in, 579
young asymptomatic, functional abnormalities in, with special reference to flow volume curves breathing various gases, 623
Smoking habits, relation between age at diagnosis and, in lung cancer in men (Note), 883
Sodium, distribution of, in chronic obstructive pulmonary disease, 166

STATE OF THE ART
Bronchocentric granulomatosis, mucoid impaction, and hypersensitivity reactions to fungi, 497
Bronchofiberscopy, 62
Hyaline membrane disease, 657
Neural regulation of respiration, 206
Postnatal growth and development of the lung, 803
Short-course chemotherapy for pulmonary tuberculosis, 325
Correction, 845
Stimulation, chronic cholinergic, of canine respiratory tissue, effect of, on activities of glycosyltransferases and release of macromolecules, 423
Stomas, preformed, connecting pleural cavity and lymphatics in parietal pleura, 12
Streptomycin-susceptible and -resistant strains of BCG, relative immunogenicity of, 43
Surfactant, pulmonary, prolonged sympathetic activation and, and its absence of effect in anesthetized cats, 619
Tecumseh study of respiratory illness. VIII, 27
Terbutaline, tracheal mucociliary transport in patients with cystic fibrosis and its stimulation by, 733
Theophylline toxicity caused by impaired theophylline degradation (correspondence), 240
Thoracotomy, open, for pneumothorax in cystic fibrosis, 611
Tissue
canine respiratory, chronic cholinergic stimulation of, 423
invasion, limited, evidence of, in allergic bronchopulmonary aspergillosis (case report), 232
volume, pulmonary, measured by rebreathing technique, 157
Tubercle bacilli, names for (correspondence), 240
Tuberculin
lymphoblastoid transformation in presence of, as diagnostic aid in tuberculous meningoencephalitis (correspondence), 366
purified protein derivate solutions, effect of light on, 52
reactors, adult, competing risks of tuberculosis and hepatitis for (editorial), 573
skin test (correspondence), 366
Tuberculosis
competing risks of, for adult tuberculin reactors (editorial), 573
delayed hypersensitivity and immunity in (editorial), 243
extrapulmonary, in Oklahoma, 1955-1973, 641
general patient population with, incidence of urine cultures positive for *M. tuberculosis* in, 647
intermittent chemotherapy for adults with (correspondence), 366
pulmonary
infectivity of patients with, in inner city homes (correspondence), 707
short-course chemotherapy for (state of the art), 325
relation between delayed hypersensitivity and immunity in (editorial), 109
tension pleural effusion as delayed complication of pneumothorax therapy in (case report), 543
Tumor(s)
aspergilloma, cavitary pulmonary cryptococcosis complicated by (case report), 549
blastoma, pulmonary (correspondence), 240
carcinoma
alveolar cell, accompanied by fluid and electrolyte depletion through production of voluminous liquid (case report), 857
hepatic, alpha$_1$-antitrypsin deficiency and (case report), 863
of lung, clinical usefulness as biologic marker of ectopic production of big ACTH in, 279
granulomas, liver, containing copper in vineyard sprayer's lung, 189
mesothelioma
benign, localized, pleural, biochemical characterization of hyaluronic acid from case of, 775
pleural, histochemical demonstration of hyaluronic acid in (Note), 699
United States, *M. simiae* infection in (case report), 357
Urine cultures positive for *M. tuberculosis*, incidence of, in general tuberculosis patient population, 647
Vaccination, live attenuated influenza, changes in small airway function after, 399
Ventilation distribution, horizontal gradient in, caused by localized chest wall abnormality, 781
Vineyard sprayer's lung, liver granulomas containing copper in, 189
Virus, herpes-like, antibody to, in sarcoidosis (Note), 880
Wheezing and pulmonary edema after pulmonary embolism (case report), 693
World Health Organization studies on bacteriophage typing of *M. tuberculosis*, 459
Workers
office, and hospitalized patients, precipitating antibodies in, directed toward antigens causing hypersensitivity pneumonitis, 201
vineyard sprayer's lung, liver granulomas containing copper in, 189

Acknowledgment

The Editor is pleased to acknowledge the valuable contributions of the following individuals who have served as guest reviewers for the Editorial Board between October 1, 1974 and April 1, 1975:

CORRESPONDENCE

RICHARD J. HICKEY, RICHARD C. CLELLAND, DAVID E. BOYCE, EVELYN J. BOWERS; WILLIAM WEISS, Cigarette Smoke as a Carcinogen? — 105

AMERICAN THORACIC SOCIETY — 107

ANNOUNCEMENT — 107

PROFESSIONAL RECRUITMENT — 108

Supplementary data for the paper "Lung Function in Alpha$_1$-Antitrypsin Heterozygotes (Pi Type MZ)", by Cooper, Hoeppner, Cox, Zamel, Bryan, and Levison (REVIEW, 1974, *110*, 708), may be obtained from ASIS/NAPS c/o Microfiche Publications, 440 Park Avenue South, New York, N. Y. 10016. Refer to NAPS document #02518.

ERRATA

In the "State of the Art Review. The Impact of Chemotherapy on the Care of Patients with Tuberculosis," by Robert F. Johnston and Kenneth H. Wildrick, appearing in the June 1974 issue of the REVIEW (page 636), there are errors in table 2 on page 642. In the column entitled "Cases/100,000," the second item should read 2,703 (NOT 270.3) and the third item should be 508 (NOT 50.8).

The equation on page 303, of the paper entitled "Lung Cell Mitochondria: Rapid Oxidation of Glycerol-1-Phosphate but Slow Oxidation of 3-Hydroxybutyrate" (Review, 1974, *109*, 301-303), by Mustafa and Cross, is in error. The beginning of the equation should read:

$$DHAP + NADH + H^+ \longrightarrow G\text{-}1\text{-}P + NAD^+ \text{ (in the cytoplasm).}$$

SUBJECTS

Abscess, perirectal, as complication in primary pulmonary sporotrichosis (case report), 119
Acetone extracts of *M. tuberculosis* and *M. bovis*, inactivation of phages DS6A and D29 by, 17
Adrenocortical secretions in acute and chronic respiratory insufficiency, 77
Adult respiratory distress syndrome, lumping or separating, a controversy? (correspondence), 888
Aerosol
  cadmium, cellular proliferation induced in lung by, 173
  sprays, are they hazardous? (editorial), 485
Airway(s)
  obstruction
    chronic, role of parasympathetic nervous system in maintenance of, in asthmatic children, 599
    mild, sensitivity of volume of isoflow in detection of, 401
  peripheral, goblet cells in, in chronic bronchitis, 65
Alpha-macroglobulins, role of, in uptake of proteinase by rabbit alveolar macrophages, 521
Alpha$_1$-antitrypsin
  detection of cross-reacting material for, in liver extracts by acid-starch electrophoresis (Note), 137
  determinants of chronic obstructive pulmonary disease in patients with intermediate concentrations of, 71
    (correspondence), 889
  pi
    system workshop, first international (correspondence), 147
    types in postmortem blood, 201
  role of, in uptake of proteinase by rabbit alveolar macrophages, 521
Alveolar
  -arterial oxygen tension, relationship of arterial-alveolar nitrogen tension to, in cystic fibrosis, 513
  hypoventilation
    central, in child (case report), 259
    primary, associated with mild proximal myopathy (case report), 867
  macrophage
    pulmonary, protein biosynthesis by, 849
    rabbit, role of alpha$_1$-antitrypsin and alpha-macroglobulins in uptake of proteinase by, 521
Amberson, J. Burns, lecture, 165
American Thoracic Society
  BCG vaccine for tuberculosis. Statement by the Advisory Committee on Immunization Practices, 478
  Tuberculosis control programs for low incidence areas. Statement by the ALA TB-RD Program Committee, 480
  Notices, 153, 320, 482, 583, 749, 891
Amphotericin B, stability of, in polyvinyl chloride intravenous infusion bags (Note), 145
Anesthesia, general, and lung (state of the art), 541
Antibody response, lack of effect of rifampin on, to viral antigen in patients with tuberculosis (Note), 739
Anticoagulated patients, occult pulmonary hemorrhage in, 23
Antigen(s)
  M. tuberculosis, immunoelectrophoresis of, 639
  of various mycobacterial species, composition of, detected with *M. tuberculosis* reference serum (Note), 135
  viral, lack of effect of rifampin on antibody response to, in patients with tuberculosis (Note), 739
Arizona s general hospitals, tuberculosis care in, 757
Asbestos exposure and multiple primary tumors, 181
Aspergillosis, pulmonary, general and specific humoral immune response to, 799
Asthma
  acute, blood studies in untreated patients with, 607
  bronchial
    associated with inhalation of pancreatic extracts (correspondence), 273
    possible role of chemical mediators of immediate hypersensitivity in pathogenesis of (state of the art), 423
    provocation tests in etiologic diagnosis and analysis of (state of the art), 829
  children with, role of parasympathetic nervous system in maintenance of chronic airway obstruction in, 599
  experimentally induced, effects of smoked marijuana in, 377
Atropine sulfate and isoproterenol hydrochloride, comparative study of, in chronic bronchitis, 371
Bacille Calmette-Guérin
  tuberculin-induced lymphocyte transformation and skin reactivity in monkeys vaccinated or not vaccinated with, then challenged with virulent *M. tuberculosis*, 43

vaccines for tuberculosis (ATS statement), 478
Bacteremia after *Mycoplasma pneumoniae* infection (case report), 131
Bacteremic challenge, pulmonary response to, 7
Biology, some problems with "mechanism" in (editorial), 325
Biopsy specimens, lung, preparation of, by perfusion-fixation, 645
Black alcoholic male, treating tuberculosis in (correspondence), 147, 743
Blood
  concentrations, lidocaine, during fiberoptic bronchoscopy, 53
  gas analyses, capillary, value of, in management of acute respiratory distress (Note), 879
  postmortem, alpha$_1$-antitrypsin pi types in, 201
  studies in untreated patients with acute asthma, 607
Breath, "bad," as presenting manifestation of anaerobic pulmonary infection (case report), 875
Bronchial
  brushes, quantitative differences in cellular yield of two (Note), 267
  dimensions and stature (Note), 142
  obstruction by incorporation of aspirated vegetable material in bronchial wall (case report), 717
  provocation tests in etiologic diagnosis and analysis of asthma (state of the art), 829
Bronchioles, secretion on surface of, observed with scanning electron microscope, 491
Bronchitis, chronic
  characteristics of, in warm, dry region, 365
  comparative study of atropine sulfate and isoproterenol hydrochloride in, 371
  goblet cells in peripheral airways in, 65
Bronchodilator, Sch 1000 as new anticholinergic, 823
Bronchoscopy, fiberoptic, lidocaine blood concentrations during, 53
Cadmium aerosol, cellular proliferation induced in lung by, 173
Capillary blood gas analyses, value of, in management of acute respiratory distress (Note), 879
Cell(s)
  extract and culture filtrate antigens, comparative analysis of, 639
  suspended and on surfaces, comparison of synthetic activity of, in protein biosynthesis by pulmonary alveolar macrophage, 349
Cellulitis, disseminated *M. kansasii* infection presenting as, in renal homograft recipient (case report), 125
Chemotherapy
  intermittent, of tuberculosis (correspondence), 273
  of pulmonary infection due to *M. kansasii*, response to, 31
Chest wall abnormality, localized, horizontal gradient in ventilation distribution due to (correspondence), 744
Children
  with asthma, role of parasympathetic nervous system in maintenance of chronic airway obstruction in, 599
  school-age, use of productive cough test to confirm prevalence of respiratory symptoms in (Note), 461
Cigarettes. *See* Smoke
Cilia, congenitally nonfunctioning, evidence for, in tracheobronchial tract in two subjects, 807
Circulation, pulmonary collateral, of dogs, gas exchange in, effects of alveolar hypoxia and systemic hypoxemia on, 615
Closing volume
  between-technician variation in measurement of, 621
  intraindividual variability in, in asymptomatic subjects, 407
  measurement, variability of, in normal subjects, 209
Coccidioides immitis as rare cause of pulmonary mycetoma (case report), 733
Concanavalin A-purified mycobacterial polysaccharides, species distribution of three, 361
Cord factor not toxic in rats (Note), 578
CORRESPONDENCE
  Adult respiratory distress syndrome—lumping or separating: a controversy?, 888
  Bronchial asthma and allergic rhinitis associated with inhalation of pancreatic extracts, 273
  Cigarette smoking as a carcinogen?, 147, 746
  Competing risks of tuberculosis and hepatitis for adult tuberculin reactors, 581
  Correct procedure for calculation of functional residual capacity using helium dilution technique, 743
  Determinants of chronic obstructive pulmonary disease in patients with intermediate concentrations of alpha$_1$-antitrypsin, 889
  Eponymization and tuberculosis, 743
  Fever and pneumonia after flexible fiberoptic bronchoscopy, 887
  First international alpha$_1$-antitrypsin pi system workshop, 147
  Horizontal gradient in ventilation distribution due to localized chest wall abnormality, 744
  Infectivity of patients with pulmonary tuberculosis in inner city homes, 147
  Intermittent chemotherapy of tuberculosis, 273
  Mucociliary clearance, 744
  Physical therapy, 887
  Roentgenographically atypical *Pneumocystis*

carinii pneumonia, 273
Sarcoidosis, 147, 746
Treating tuberculosis in poor black alcoholic male, 147, 743
Tuberculin skin test, 147
Cotton dust, coarse, change in respiratory response to, over 10-year period, 417
Cough test, productive, use of, to confirm prevalence of respiratory symptoms in school-age children (Note), 461
Cystic fibrosis, relationship of arterial-alveolar nitrogen tension to alveolar-arterial oxygen tension, lung volume, flow measurement, and diffusing capacity in, 513
Death, defining (editorial), 587
Dehydration, effects of, on radiologic and pathologic appearance of experimental canine segmental pneumonia, 651
Diffusing capacity
effect of elevated triglycerides on, 83
relationship of arterial-alveolar nitrogen tension to, in cystic fibrosis, 513
Dirofilaria immitis, solitary and bilateral pulmonary nodules due to (case report), 445
Dirofilariasis, pulmonary (case report), 437
Dog
experimental segmental pneumonia in, effects of dehydration on radiologic and pathologic appearance of, 651
gas exchange in pulmonary collateral circulation of, effects of alveolar hypoxia and systemic hypoxemia on, 615
with pneumococcal pneumonia, preservation of hypoxic pulmonary pressor response in, 817
tracheal epithelium of, active transport of Na^+ and Cl^- across, *in vitro*, 811
Drugs, sedative, respiratory complications of overdose with, 591
Dust, coarse cotton, change in respiratory response to, over 10-year period, 417
Dying patients, relation to (editorial), 159
EDITORIALS
Are aerosol sprays hazardous?, 485
Defining death: A philosophical problem for medicine and law, 587
Epidemiologic methods in investigation of occupational lung disease, 1
Means, ends, and functions: Some problems with "mechanism" in biology, 325
National pulmonary faculty training program, 329
Relating to dying patients, 159
SI units in respiratory medicine, 753
Sudden infant death syndrome, 157
Elastin-rhodamine as substrate in granulocyte lysosomal elastase activity, 629
Electrophoresis, acid-starch, detection of cross-reacting material for $alpha_1$-antitrypsin in liver extracts by (Note), 137
Epidemiologic methods in investigation of occupational lung disease (editorial), 1
Epithelium, canine tracheal, *in vitro* active transport of Na^+ and Cl^- across, 811
Eponymization and tuberculosis (correspondence), 743
Exercise physiology in health and disease (state of the art), 219
Fever and pneumonia after flexible fiberoptic bronchoscopy, 59
(correspondence), 887
Fibrosis, cystic, relationship of arterial-alveolar nitrogen tension to alveolar-arterial oxygen tension, lung volume, flow measurements, and diffusing capacity in, 513
Flow
measurements, relationship of arterial-alveolar nitrogen tension to, in cystic fibrosis, 513
-volume, maximal expiratory, intraindividual variability in, in asymptomatic subjects, 407
Forced expiratory volume in one second (Note), 882
Functional residual capacity, correct procedure for calculation of, using helium dilution technique (correspondence), 743
Gas exchange in pulmonary collateral circulation of dogs, effects of alveolar hypoxia and systemic hypoxemia on, 615
Goblet cells in peripheral airways in chronic bronchitis, 65
Granulocyte lysosomal elastase activity using *t*-butyloxycarbonyl-L-alanine *p*-nitrophenol ester and elastin-rhodamine as substrates, 629
Guinea pig
thymus-dependent lymphocytes, local passive transfer of purified protein derivative-delayed tuberculin hypersensitivity by, 535
trachealis muscle, *in vitro* effect of lidocaine as local anesthetic on, 393
Haemophilus influenzae after *Mycoplasma pneumoniae* infection (case report), 131
Hashimoto's thyroiditis, coincidence of sarcoidosis and (case report), 113
Helium dilution technique, correct procedure for calculation of functional residual capacity using (correspondence), 743
Hemorrhage, occult pulmonary, in anticoagulated patients, 23
Hepatitis and tuberculosis, competing risks of, for adult tuberculin reactors (correspondence), 581
Homograft recipient, renal, disseminated *M. kansasii* infection presenting as cellulitis in (case report), 125
Hormones and mediators, metabolism, production, and release of, in lung (state of the art), 93
Hospitals, Arizona's general, tuberculosis care in, 757

Hydrogen ion regulation, temperature, and evolution (Amberson lecture), 165
Hyperprolactinemia in sarcoidosis (Note), 269
Hypersensitivity
delayed, factors of, in pulmonary tuberculosis, 49
immediate, possible role of chemical mediators of, in pathogenesis of bronchial asthma (state of the art), 423
purified protein derivative-delayed tuberculin, local passive transfer of, by guinea pig thymus-dependent lymphocytes, 535
Hypothalamic involvement, incidence and utility in predicting, in hyperprolactinemia in sarcoidosis (Note), 269
Hypoventilation
central alveolar, in child (case report), 259
primary alveolar, associated with mild proximal myopathy (case report), 867
Immune response, humoral, general and specific, to pulmonary aspergillosis, 799
Immunoelectrophoresis of *M. tuberculosis* antigens, 639
Infant death syndrome, sudden (editorial), 157
Infection
anaerobic pulmonary, "bad breath" as manifestation of (case report), 875
disseminated *M. kansasii*, presenting as cellulitis in renal homograft recipient (case report), 125
evidence for, by two distinct strains of *M. tuberculosis* in pulmonary tuberculosis, 497
Mycoplasma pneumoniae
followed by *Haemophilus influenzae* pneumonia and bacteremia (case report), 131
point source epidemic of, in prosthodontics laboratory, 213
pulmonary, due to *M. kansasii*, response to chemotherapy of, 31
sporotrichoid *Nocardia brasiliensis*, response to potassium iodide in (case report), 721
Infusion bags, polyvinyl chloride intravenous, stability of amphotericin B in (Note), 145
Inhalation of pancreatic extracts associated with bronchial asthma and allergic rhinitis (correspondence), 273
Inner city homes, infectivity of patients with pulmonary tuberculosis in (correspondence), 147
Isoflow, sensitivity of volume of, in detection of mild airway obstruction, 401
Isoniazid prophylaxis after exposure to isoniazid-resistant tuberculosis, failure of, 37
Isoproterenol hydrochloride and atropine sulfate, comparative study of, in chronic bronchitis, 371
Jet injector compared with Mantoux method in skin testing, 789
Lidocaine
as local anesthetic, effect of, on guinea pig trachealis muscle *in vitro*, 393
blood concentrations during fiberoptic bronchoscopy, 53
Liver extracts, detection of cross-reacting material for alpha$_1$-antitrypsin in, by acid-starch electrophoresis (Note), 137
Lung
biopsy specimens, preparation of, by perfusion-fixation, 645
cellular proliferation induced in, by cadmium aerosol, 173
connective tissue of (state of the art), 657
disease, occupational, epidemiologic methods in investigation of (editorial), 1
general anesthesia and (state of the art), 541
hyperlucent, after radiation therapy (case report), 255
membrane, follow-up respiratory function of patient treated with (case report), 725
metabolism, production, and release of hormones and mediators in (state of the art), 93
postmortem, vascular interdependence in, 505
volume, relationship of arterial-alveolar nitrogen tension to, in cystic fibrosis, 513
Lymphocyte(s)
guinea pig thymus-dependent, local passive transfer of purified protein derivative-delayed tuberculin hypersensitivity by, 535
transformation, tuberculin-induced, and skin reactivity in monkeys vaccinated or not vaccinated with BCG, then challenged with virulent *M. tuberculosis*, 43
Macrophage(s)
pulmonary alveolar, protein biosynthesis by, 349
rabbit alveolar, role of alpha$_1$-antitrypsin and alpha-macroglobulins in uptake of proteinase by, 521
Mantoux method compared with jet injector in skin testing, 789
Marijuana, smoked, effects of, in experimentally induced asthma, 377
Melioidosis, pulmonary, observations in 39 cases of, 331
Metabolism, production, and release of hormones and mediators in lung (state of the art), 93
Microscope, scanning electron, observation of secretion on surface of bronchioles with, 491
Monkeys vaccinated or not vaccinated with BCG, tuberculin-induced lymphocyte transformation and skin reactivity in, then challenged with virulent *M. tuberculosis*, 43
Mono-Vacc test in patient with active tuberculosis (Note), 140
Mucociliary
clearance (correspondence), 744
transport and rheologic properties of sputum, 341

Mycetoma, pulmonary, caused by *Coccidioides immitis* (case report), 733
Mycobacterial disease, laboratory services for, 773
Mycobacterium
bovis, acetone extracts of, inactivation of phages DS6A and D29, by, 17
kansasii
infection, disseminated, presenting as cellulitis in renal homograft recipient (case report), 125
response to chemotherapy of pulmonary infection due to, 31
tuberculosis
acetone extracts of, inactivation of phages DS6A and D29 by, 17
antigens, immunoelectrophoresis of, 639
reference serum, composition of antigens of various mycobacterial species detected with (Note), 135
resistance-enhancing compound from, 633
two distinct strains, evidence of infection by, in pulmonary tuberculosis, 497
virulent, tuberculin-induced lymphocyte transformation and skin reactivity in monkeys vaccinated or not vaccinated with BCG, then challenged with, 43
Mycoplasma
pneumonia with bilateral pleural effusions (case report), 451
pneumoniae infection
followed by *Haemophilus influenzae* pneumonia and bacteremia (case report), 131
point source epidemic of, in prosthodontics laboratory, 213
Myopathy, mild proximal, primary alveolar hypoventilation associated with (case report), 867
Nervous system, parasympathetic, role of, in maintenance of chronic airway obstruction in asthmatic children, 599
Neutrophil-monocyte bactericidal defects, intermittent, in patient with sarcoidosis, 387
Nitrogen
analyzers, evaluation of (Note), 571
tension, arterial-alveolar, relationship of, to alveolar-arterial oxygen tension, lung volume, flow measurements, and diffusing capacity in cystic fibrosis, 513
Nocardia brasiliensis infection, sporotrichoid, response to potassium iodide in (case report), 721
Nodules, solitary and bilateral pulmonary, due to *Dirofilaria immitis* (case report), 445
Oxygen tension, alveolar-arterial, relationship of arterial-alveolar nitrogen tension to, in cystic fibrosis, 513
Oxygenation, arterial, adverse effect of positive end-expiratory pressure on (case report), 457
Pancreatic extracts, inhalation of, associated with bronchial asthma and allergic rhinitis (correspondence), 273
Perfusion
-fixation preparation of lung biopsy specimens, 645
pulmonary, adverse effect of positive end-expirtory pressure on (case report), 457
Phages DS6A and D29, inactivation of, by acetone extracts of *M. tuberculosis* and *M. bovis*, 17
Phytohemagglutinin skin test in patients with sarcoidosis (Note), 575
Plethysmograph, whole body, in evaluating central alveolar hypoventilation in child (case report), 259
Plethysmography, whole body, improvement in (Note), 464
Pleural effusions, bilateral, in *Mycoplasma* pneumonia (case report), 451
Pneumocystis carinii pneumonia, roentgenographically atypical (correspondence), 273
Pneumonia
canine pneumococcal, preservation of hypoxic pulmonary pressor response in, 817
experimental canine segmental, effects of dehydration on radiologic and pathologic appearance of, 651
and fever after flexible fiberoptic bronchoscopy, 59
(correspondence), 887
Haemophilus influenzae after *Mycoplasma pneumoniae* infection (case report), 131
Mycoplasma, with bilateral pleural effusions (case report), 451
roentgenographically atypical *Pneumocystis carinii* (correspondence), 273
subacute staphylococcal, in renal transplant recipient (case report), 109
Pneumonitis, experimental, pulmonary arteriovenous differences in serum antiprotease activity during, 527
Polysaccharides, concanavalin A-purified mycobacterial, species distribution of three, 361
Polyvinyl chloride intravenous infusion bags, stability of amphotericin B in (Note), 145
Potassium iodide, response to, in sporotrichoid *Nocardia brasiliensis* infection (case report), 721
Pregnancy, tuberculin sensitivity in, 413
Pressor response, hypoxic pulmonary, preservation of, in canine pneumococcal pneumonia, 817
Protein biosynthesis by pulmonary alveolar macrophage, comparison of synthetic activity of suspended cells and cells on surfaces in, 349
Proteinase, role of alpha$_1$-antitrypsin and alpha-macroglobulins in uptake of, by rabbit alveolar macrophages, 521
Pulmonary
arteriovenous differences in serum and anti-

protease activity during experimental pneumonitis, 527
disease, chronic obstructive, determinants of, in patients with intermediate concentrations of alpha$_1$-antitrypsin, 71
(correspondence), 889
faculty training program, national (editorial), 329
function interpretation, deductive versus inductive methods in, 89
response to bacteremic challenge, 7
Rabbit alveolar macrophage, role of alpha$_1$-antitrypsin and alpha-macroglobulins in uptake of proteinase by, 521
Radiation therapy, hyperlucent lung after (case report), 255
Radiologic appearance, effects of dehydration on, of experimental canine segmental pneumonia, 651
Rats, cord factor not toxic in (Note), 578
Renal
homograft recipient, disseminated *M. kansasii* infection presenting as cellulitis in (case report), 125
transplant recipient, subacute staphylococcal pneumonia in (case report), 109
Respiratory
complications of overdose with sedative drugs, 591
distress, acute, value of capillary blood gas analyses in management of (Note), 879
function, follow-up, of patient treated with membrane lung (case report), 725
insufficiency, acute and chronic, adrenocortical and somatotrophic secretions in, 77
medicine, SI units in (editorial), 753
response to coarse cotton dust, change in, over 10-year period, 417
symptoms, use of productive cough test to confirm prevalence of, in school-age children (Note), 461
RETROSPECTROSCOPE
Feet on the ground??, 251
Inflation—1904 model, 713
. . . the soul of wit, 861
Rhinitis, allergic, associated with inhalation of pancreatic extracts (correspondence), 273
Rifampin, lack of effect of, on antibody response to viral antigen in patients with tuberculosis (Note), 739
Sarcoidosis
(correspondence), 147, 746
coincidence of, and Hashimoto's thyroiditis (case report), 113
hyperprolactinemia in (Note), 269
intermittent neutrophil-monocyte bactericidal defects in patient with, 387
phytohemagglutinin skin test in patients with (Note), 575
Sch 1000, new anticholinergic bronchodilator, 823
Serum
antiprotease activity, pulmonary arteriovenous differences in, during experimental pneumonitis, 527
M. tuberculosis reference, composition of antigens of various mycobacterial species detected with (Note), 135
Skin
reactivity and tuberculin-induced lymphocyte transformation in monkeys vaccinated or not vaccinated with BCG, then challenged with virulent *M. tuberculosis*, 43
test
phytohemagglutinin, in patients with sarcoidosis (Note), 575
tuberculin (correspondence), 147
testing, comparison of jet injector with Mantoux method in, 789
Smoke
cigarette, as carcinogen? (correspondence), 147, 746
marijuana, effects of, in experimentally induced asthma, 377
Somatotrophic secretions in acute and chronic respiratory insufficiency, 77
Sporotrichoid *Nocardia brasiliensis* infection, response to potassium iodide in (case report), 721
Sporotrichosis, primary pulmonary, complicated by perirectal abscess (case report), 119
Sputum, physical properties of, 341
STATE OF THE ART
Bronchial asthma: The possible role of the chemical mediators of immediate hypersensitivity in pathogenesis of subacute chronic disease, 423
Bronchial provocation tests in etiologic diagnosis and analysis of asthma, 829
The connective tissue of lung, 657
Exercise physiology in health and disease, 219
General anesthesia and the lung, 541
Metabolism, production, and release of hormones and mediators in lung, 93
t-butyloxycarbonyl-L-alanine *p*-nitrophenol ester as substrate in granulocyte lysosomal elastase activity, 629
Therapy, physical (correspondence), 887
Thymus-dependent lymphocytes, guinea pig, local passive transfer of purified protein derivative-delayed tuberculin hypersensitivity by, 535
Thyroiditis, Hashimoto's, coincidence of sarcoidosis and (case report), 113
Tissue, connective, of lung (state of the art), 657
Trachealis muscle, guinea pig, *in vitro* effect of lidocaine as local anesthetic on, 393
Tracheobronchial tract, evidence for congenitally nonfunctioning cilia in, in two subjects, 807
Transplant recipient, renal, subacute staphylo-

coccal pneumonia in (case report), 109
Transport, active, of Na^+ and Cl^- across canine tracheal epithelium *in vitro*, 811
Triglycerides, elevated, effect of, on diffusing capacity, 83
Tuberculin
hypersensitivity, purified protein derivative-delayed, local passive transfer of, by guinea pig thymus-dependent lymphocytes, 535
-induced lymphocyte transformation and skin reactivity in monkeys vaccinated or not vaccinated with BCG, then challenged with virulent *M. tuberculosis*, 43
reactors, adult, competing risks of tuberculosis and hepatitis for (correspondence), 581
sensitivity in pregnancy, 413
skin test (correspondence), 147
tine test in patient with active tuberculosis (Note), 140
Tuberculosis
active, tuberculin tine and Mono-Vacc tests in patient with (Note), 140
BCG vaccines for (ATS statement), 478
care in Arizona's general hospitals, 757
control programs for low incidence areas (ATS statement), 480
and eponymization (correspondence), 743
and hepatitis, competing risks of, for adult tuberculin reactors (correspondence), 581
inactive, lifelong follow-up of, 765
intermittent chemotherapy of (correspondence), 273
isoniazid-resistant, failure of isoniazid prophylaxis after exposure to, 37
lack of effect of rifampin on antibody response to viral antigen in patients with (Note), 739
pulmonary
evidence for infection by two distinct strains of *M. tuberculosis* in, 497
factors of delayed hypersensitivity in, 49
infectivity of patients with, in inner city homes (correspondence), 147
vocal cord paralysis due to (case report), 565
treating, in poor black alcoholic male (correspondence), 147, 743
Tumors, multiple primary, and asbestos exposure, 181
Vaccines, BCG, for tuberculosis (ATS statement), 478
Vegetable material, aspirated, bronchial obstruction by incorporation of, in bronchial wall (case report), 717
Ventilation distribution, horizontal gradient in, due to localized chest wall abnormality (correspondence), 744
Vocal cord paralysis due to pulmonary tuberculosis (case report), 565

Acknowledgment

The Editor is pleased to acknowledge the valuable contributions of the following individuals who have served as guest reviewers for the Editorial Board between April 1, 1975 and October 1, 1975:

AMERICAN REVIEW OF

Respiratory Disease

July 1975 Volume 112 Number 1

EDITORIAL

HANS WEILL — Epidemiologic Methods in the Investigation of Occupational Lung Disease — 1

ARTICLES

EDWARD M. HARROW, GEORGE J. JAKAB, ARNOLD R. BRODY, AND GARETH M. GREEN — The Pulmonary Response to a Bacteremic Challenge — 7

BERNARD U. BOWMAN, JR., LYNNA J. FISHER, DONALD T. WITIAK, AND HOWARD A. I. NEWMAN — Inactivation of Phages DS6A and D29 by Acetone Extracts of *Mycobacterium tuberculosis* and *Mycobacterium bovis* — 17

THEODORE N. FINLEY, ABRAHAM ARONOW, ANTHONY M. COSENTINO, AND DAVID W. GOLDE — Occult Pulmonary Hemorrhage in Anticoagulated Patients — 23

GARY D. HARRIS, WALDEMAR G. JOHANSON, JR., AND DAVID P. NICHOLSON — Response to Chemotherapy of Pulmonary Infection Due to *Mycobacterium kansasii* — 31

RONALD D. FAIRSHTER, GUY P. RANDAZZO, JACK GARLIN, AND ARCHIE F. WILSON — Failure of Isoniazid Prophylaxis after Exposure to Isoniazid-resistant Tuberculosis — 37

SOTIROS D. CHAPARAS, ROBERT C. GOOD, AND BERNARD W. JANICKI — Tuberculin-induced Lymphocyte Transformation and Skin Reactivity in Monkeys Vaccinated or Not Vaccinated with Bacille Calmette-Guérin, Then Challenged with Virulent *Mycobacterium tuberculosis* — 43

A. N. MALAVIYA, K. L. SEHGAL, R. KUMAR, AND H. B. DINGLEY — Factors of Delayed Hypersensitivity in Pulmonary Tuberculosis — 49

JAMES R. PATTERSON, TERRENCE F. BLASCHKE, K. KELLOGG HUNT, JR., AND PETER J. MEFFIN — Lidocaine Blood Concentrations during Fiberoptic Bronchoscopy — 53

WLADEMIR PEREIRA, DANIEL M. KOVNAT, M. ANEES KHAN, JOHN R. IACOVINO, MARTIN L. SPIVACK, AND GORDON L. SNIDER — Fever and Pneumonia after Flexible Fiberoptic Bronchoscopy — 59

WILLIAM M. THURLBECK, DAVID MALAKA, AND KEVIN MURPHY — Goblet Cells in the Peripheral Airways in Chronic Bronchitis — 65

R. KLAYTON, R. FALLAT, AND A. B. COHEN — Determinants of Chronic Obstructive Pulmonary Disease in Patients with Intermediate Concentrations of Alpha$_1$-Antitrypsin — 71

A. CORNIL, D. GLINOER, R. LECLERCQ, AND G. COPINSCHI — Adrenocortical and Somatotrophic Secretions in Acute and Chronic Respiratory Insufficiency — 77

HAROLD H. NEWBALL, WILLIAM T. FRIEDEWALD, BARBARA ROBERTS, ROBERT I. LEVY, AND CLAUDE J. LENFANT — Effect of Elevated Triglycerides on the Diffusing Capacity of Man — 83

D. N. OSTROW, N. CRAVEN, AND R. M. CHERNIACK — Learning Pulmonary Function Interpretation: Deductive versus Inductive Methods — 89

STATE OF THE ART

ALAIN F. JUNOD — Metabolism, Production, and Release of Hormones and Mediators in the Lung — 93

CASE REPORTS

HARRY A. GALLIS — Subacute Staphylococcal Pneumonia in a Renal Transplant Recipient — 109

MENAHEM LENDER — Coincidence of Sarcoidosis and Hashimoto's Thyroiditis — 113

FAROQUE A. KHAN, JOSEPH J. GUARNERI, AND MARCELINO F. SIERRA — Primary Pulmonary Sporotrichosis Complicated by Perirectal Abscess — 119

DAVID W. FRASER, ALFRED E. BUXTON, ALI NAJI, CLYDE F. BARKER, MICHAEL RUDNICK, AND ALLAN J. WEINSTEIN — Disseminated *Mycobacterium kansasii* Infection Presenting as Cellulitis in a Recipient of a Renal Homograft — 125

BRUCE V. STADEL, HJORDIS M. FOY, J. WILLIAM NUCKOLLS, AND GEORGE E. KENNY — *Mycoplasma pneumoniae* Infection Followed by *Haemophilus influenzae* Pneumonia and Bacteremia — 131

NOTES

SOTIROS D. CHAPARAS — Composition of Antigens of Various Mycobacterial Species Detected with a *Mycobacterium tuberculosis* Reference Serum — 135

JACK LIEBERMAN, LAIMA GAIDULIS, SHOJI MATSUBARA, AND AKIRA YOSHIDA — The Detection of Cross-Reacting Material for $Alpha_1$-Antitrypsin in Liver Extracts by Acid-Starch Electrophoresis — 137

DOUGLAS W. JENKINS AND RICHARD B. BYRD — The Tuberculin Tine and Mono-Vacc Tests in the Patient with Active Tuberculosis — 140

WILLIAM M. THURLBECK AND JAMES R. HAINES — Bronchial Dimensions and Stature — 142

MARGARET TIPPLE, SMITH SHADOMY, AND ANA ESPINEL-INGROFF — Stability of Amphotericin B in Polyvinyl Chloride Intravenous Infusion Bags — 145

CORRESPONDENCE

LOUKAS G. OREOPOULOS; T. JACOB JOHN; JOHN A. SBARBARO; DAVID GLASSER, Tuberculin Skin Test; M. K. FAGERHOL, A. M. JOHNSON, R. C. TALAMO, First International $Alpha_1$-Antitrypsin Pi System Workshop; RICHARD J. HICKEY, RICHARD C. CLELLAND, DAVID E. BOYCE, EVELYN J. BOWERS, Cigarette Smoke as a Carcinogen?; DIXIE E. SNIDER, NANCY J. THOMPSON, Infectivity of Patients with Pulmonary Tuberculosis in Inner City Homes; ROBERT L. HACKNEY, JR., Treating Tuberculosis in the Poor Black Alcoholic Male; RICHARD A. DEREMEE, HOWARD A. ANDERSEN; D. N. MITCHELL, J. G. SCADDING, Sarcoidosis. — 147
